New York.

Encouraging Business Prospects.

A Fearful Criminal Record.

New York, August 30.-A general good fall and winter business is anticipated for New Yorkers. A revival in business is already noticeable. The dry goods dealers say they are selling more this month than they have sold during any corresponding month for some years past. The Bank of California and other recent failures made no decided impression in financial or commercial circles here.

Last night one of the cars of the Bleeker street line was passing the corner of New Bowery and James streets, an unknown man jumped on the rear platform, and without saying a word, he drew a knife from his pocket and stabbed Abraham Clark, the conductor, in the left thigh, inflicting several wounds. The would-be murderer escaped.

Thomas Hannihan and Banks Klancy engaged in a fight in a larger beer saloon. Klancy struck his opponent several times and stabbed him in the back with a knife, inflicting several severe wounds, and then escaped.

There was a terrible stabbing case in the Seventeenth Precinct yesterday afternoon. Joseph Pechovsky, a Polish tailor, plunged a knife into Mrs. Mary Warkensky's breast up to the hilt. He followed this with six other blows in different parts of the body. Her son came to her rescue and wrestled the knife from Pechovsky, who was then taken prisoner. Mrs. Warkensky's wounds are pronounced fatal.

The murder perpetrated on board the schooner Josephine Lloyd, in Cow Bay, L. I., Friday night, was of a most atrocious character. Captain Lawrence and the mate, whose name is at present unknown, had an altercation on the deck, and afterwards in the cabin. When the remainder of the crew, two boys, opened the door of the state-room the body of the unfortunate captain was discovered covered with blood, and chopped in a shocking manner with an ax. The murderer's hands were tied together, and not the least signs of life could be found in him. The captain's pocketbook had been rifled, and the murderer had gone. A rumor was current at City Island yesterday that the assassin had been captured, but it has not yet been confirmed.

About noon to-day Mary Callaghan, a widow, aged 48 years, was found lying dead on the floor of her residence, No. 198 Southfield avenue. There appears to be but little doubt that the woman had been kicked to death by her son, Thomas Callaghan, aged 28 years. Both had been drinking hard.

Washington.

Pacific Coast Crooked Brandy.

The Potomac Overflow.

WASHINGTON, August 30.-A few weeks ago it was stated that the Secretary had ordered a rigid examination into affairs of the distilleries on the Pacific coast, and reports to-day, received by telegrams from Government agents, are to the effect that for years there has been systematic defrauding of revenue by the manufacture of brandy. The report also indicates compliance on the part of internal revenue officers. Seizures will follow, and prosecutions will at once commence against several prominent business firms in San Francisco.

A heavy rain fell during almost the entire day accompanied by thunder and lightning at intervals. The Potomac has risen considerably and the streams and sewers are overflowing the low grounds filling the basements and cellars with water and doing considerable damage. The depot of the Baltimore and Potomac railroad was surrounded by water and a portion of the building was submerged most of the day. The storm ceased about sun down. At Georgetown considerable damage is reported from the same cause and by the overflowing of the canal.

THE TELEGRAPHIC CONSOLIDATION.

Condition of the Atlantic & Pacific Co.

New York, August 30.-The Graphic in its money article to-day says: The effort to depreciate the value and power of the Atlantic & Pacific Telegraph Company with a view to inducing the stockholders to accept a nominal consideration from the Western Union Telegraph Company for turning over its property and prospects, will fail. It is ascertained that notwithstanding the great misfortune of Gen. Eckert's illness the lines of the Atlantic & Pacific have during the spring and summer been greatly improved and new lines constructed.

The earnings have increased materially during the worst season of the year for telegraph business. With the improved condition of the lines and the great capacity furnished by the automatic system the coming year is bright with promise. Instead of the company being in debt, as rumor states it, it is entirely out of debt, with a fair balance in the treasury sufficient for all existing purposes. It is reported that the absolute control of the automatic and quad-

plex systems is to be arranged by the Atlantic and Pacific through an issue of stock, which will avoid a cash expenditure.

General Eckert will probably be at his post again within ten days. Hence the grand scheme of consolidation, so longed for by the Western Union, is not yet a thing complete, and it is just as well that the Atlantic and Pacific stockholders should understand that the reports that the Atlantic and Pacific Company was in an insolvent condition are entirely erroneous, and were undoubtedly given circulation by persons interested in selling that company out to the Western Union.

WHAT THE HERALD SAYS ABOUT IT.

New York, August 30.-The Herald, this morning, editorially, referring to the reports in circulation of the probable consolidation of the Western Union and Atlantic & Pacific telegraph companies, says: The public will take but little interest in the terms of the negotiations, looking upon the whole scheme as simply a stock-jobbing enterprise.

The consolidation of the alliance will virtually bring to an end all those pleasant dreams of cheap telegraphing with which the managers of the two lines amused the public some few months ago. Whatever objections there may be to the Government taking the telegraph, there is no danger so great as that which threatens it now.

Once permit these desperate speculators, such a man, for instance, as Jay Gould, to take possession of the telegraphs, and we have one of the most important of our modern business functions at the mercy of a desperate adventurer, who may place any rates he pleases on the telegraph, make it a much heavier burden to the people than the Government may be compelled to buy it from him at his own price.

This whole question of telegraphing, and its relation to the General Government, must be settled soon. The spectacle of a great interest that belongs to the people as much as the Post-office, or the Army, or the Navy, hanging on the verge of bankruptcy and degradation, that abuses to which the Erie Railroad has fallen, and to which it was brought by Jay Gould and his partners, is not reassuring. If the Government can not interfere to protect people from one of the greatest possible dangers, it is at the least the elementary duties of governments.

A Wonderful Discovery.

THE CONTENTS AND MYSTERIES OF A SUB-MARINE CAVE.

DAYTON, OHIO, August 30.-A remarkable discovery was made on an island in the Mississippi river, eight miles from here, on Friday, by some fishermen. It was a submarine cave hewn out of solid rock, and which was covered by a huge rock, and which was reached by stone steps.

The floor of the subterranean country, which had undoubtedly been made thousands of years ago, was thickly strewn with the charred remains of bones and a substance which the explorers took to be leaves first wetted then pressed together, and resembling, in color and solidity, the cake from Denmark.

On further examination almost a complete skeleton was discovered. But the most singular part came to light in the hardened and almost petrified leather straps, bronze buckles and a wooden leg, which contained the right extremity, that limb having been removed about midway between the hip and knee.

It is a very interesting discovery, proving how a knowledge of bronze was in possession of the aboriginal Americans, and their mechanical surgery in those days was equal at least to the adaptation of a timber extremity.

Maryland Politics.

A STRONG OPPOSITION TICKET NAMED.

New York, August 30.-A special from Baltimore says the secret reform party comes openly into the field at a mass meeting to be held to-night, at which the names of its candidates and a platform will be publicly announced.

The Grand Council held a session yesterday and nominated A. K. Syester, for Governor; E. H. Webster, for Attorney-General, and Edward Wilkins, for Comptroller. Syester is an Attorney at Law, and is a Democrat. Webster has been in Congress, and was Collector of the Port of Baltimore under Lincoln, but since that time has been out of politics.

Wilkins is one of the peach kings of the Peninsula, and a conservative Republican. The dispatch adds that if the Republican State Convention next month will adopt this ticket it will stand a good chance of sweeping the State.

Borne Epidemic.

QUEBEC, August 30.-An epidemic has broken out among the horses in Yvette Village, near this city. Several of the animals have died.

Primary.

SPRINGFIELD, O., August 30.-The Republican nominees of Saturday evening are as follows:

Representative, J. F. Ogilvie; Auditor, Quincy A. Pettis; Clerk, E. P. Foster; Probate Judge, John C. Miller; Recorder, George H. Frey; Coroner, J. Kinney; Inferiary Director, J. D. Stewart.

The latest discovered preventive of boiler incrustation is zinc. It appears that an engineer on board the French steamer St. Laurent, after making some repairs in the boilers, left accidentally therein an ingot of zinc. Some time after, in searching for the bar in the generator, in which, meanwhile, the steam had been maintained, he found, to his surprise, that the metal had disappeared, and also that the incrustation left by the water, instead of being hard and firm, was a mere mud, easily washed out. Repeating the experiment, during another voyage, the same result was reached. It is also stated that M. Lohour, a French chemist, after examining into this remarkable circumstance, concludes that the zinc forms a volatile compound with the iron of the boiler, zinc being the negative pole and iron the positive. It then happens, as in all batteries, that the zinc is consumed, while the iron is protected both from oxidation and incrustation. In such it may be termed, will be looked forward to with interest. -New York Sun.

Heavy Loss by Fire.

New Rochelle, August 30.-Several stores were burned this morning. Loss, \$50,000; insurance small.

New York Wants a Bank.

WASHINGTON, August 30.-A determined effort will be made next winter to pass a law authorizing the coinage of gold pieces at New York instead of Philadelphia.

Shot State Treasurer.

TRENTON, N. J., August 30.-The investigation into the affairs of the State Treasury has been adjourned until tomorrow. Mr. Levy is now confined in jail. He is much distressed and declares himself innocent.

Shot.

Boston, August 30.-A boy named Dennis, yesterday, in carrying a gun down stairs, at Mt. Hopkins, had it knocked from his hands, when it was discharged, killing his sister and injuring himself and another child severely.

Fire in the Office of the Brooklyn Argus.

BROOKLYN, N. Y., August 30.-A fire broke out in the office of the Brooklyn Argus to-day, originating in the stock-room, of supposed spontaneous combustion. Damage to presses and fixtures amounts to about \$2,000. Fully insured.

Suspension of Lee, Shepard & Co.

Boston, August 30.-The publishing house of Messrs. Lee & Shepard, of Boston, and Messrs. Lee, Shepard & Dilling, of New York, have been obliged to suspend payment.

The prosperity of the company received a severe check at the time of the great fire when their loss was near \$100,000, which was followed soon after by a loss of half of that amount by the fire in Sudbury street.

Railroad Anti-Foot Race.

BROOKLYN, August 30.-Mrs. Henrietta Mott, whose husband was killed by the collision of the 5th of July on the Rock-away Branch of the Southern Railroad, Long Island, has settled her suit for \$5,000 against the company, agreeing to accept \$4,000.

A foot race took place at Hempstead, L. I., yesterday, between James Moffat, of Norwich, Ct., and John W. Kimball, of Huntington, L. I.; distance, 125 yards; stakes, \$200 a side; Moffat won in 12 1/2 seconds.

Burned.

PITTSBURG, August 30.-A destructive fire broke out yesterday morning in Reynoldsville, a station on the low grade division of the Allegheny Valley railroad, and before the flames could be checked the entire business portion of the town was consumed.

The loss is estimated at over \$100,000, with an insurance of about \$40,000.

VINCENNES, IND., August 30.-The old fire engine-house, on Upper Sixth street, was burned Saturday by an incendiary. The building is a total loss. The contents and old fire engine were saved.

Firebugs at Work.

RAHWAY, N. J., August 30.-There were three fires here yesterday morning. The alarm at 4 A. M. was occasioned by the burning of a large barn and shed attached to Kensus & Westervest's lumber yard. Loss \$25,000. At 10:30 there was another fire in a lumber-yard to the extent of \$200, and another fire at 10:30 in a large hay barn belonging to Joseph Thompson, in South Rahway. Totally destroyed. The barn and contents consisted of 100 tons of hay. Loss, \$2,200; no insurance. The fires are supposed to be the work of an incendiary.

The Fire Department and extra police were ordered on duty for the night. Certain parties are suspected of firing these premises, but their names are not yet made known from police headquarters.

Cherokee Lawlessness.

St. Louis, August 30.-The work of lawlessness still goes on in the Indian Territory. A few days ago John Kane, a white man, was passing through the Nation with his family on his way to Texas. His family consisted of a wife and four children, one a grown daughter. When about forty miles north of Fort Gibson, while walking a short distance ahead of his wagon, Kane was met by two Indians, who killed and robbed him. When the wagon came up the fiends took all the valuables they could find and outaged his wife and daughter, then riding away on the horses of their victims.

Burgess, the desperado who killed Hatchet last Saturday, while trying to escape from a party who had arrested him, was shot and killed and then ridged with bullets.

From the State Capital.

COLUMBUS, O., August 30.-At Trinity Church last night the service and sermon were interpreted in the sign language for the benefit of the Deaf Mute Alumni present.

Ex-Bishop Hanby's stable, at Westerville, was burned, together with a horse and carriage. Whole loss, \$500.

At St. Paul's German Lutheran Church last night Theophilus Mees, of Capital University, was ordained assistant minister.

Hon. Lorenzo English has declined the Republican nomination for Probate Judge.

Work has commenced at the intersection of the Scioto Valley railroad line with the B. & O. R. R. near the east corporation line, and hands are to be worked night and day for a week, with the design of giving the city a steam railroad connection with the Fair Grounds.

End of a Reckless Party.

HOBOKEN, N. J., Aug. 30.-A party of young men and girls, consisting of H. Carroll, John Lenora, Nellie Palmer, Lily Lytle, of Jersey City, John Ryan, of New York, and Jennie Anderson, of Brooklyn, fired a boat, last evening, and went sailing on the river. They were all more or less under the influence of liquor, having drunk freely at the Elysian Fields, where they had gone to witness a baseball game. While they were on the river, the tug-boat J. J. Stevens passed, and one of the men threw a live to a deck hand, who fastened it and took the boat in tow. The party in the boat were very

noisy, and finally overturned it. A deck hand plunged in and succeeded in saving Lenora, Ryan and the girls Palmer and Lytle. All efforts to rescue Henry Carroll and Jennie Anderson were unavailing, and they were drowned. Their bodies were not recovered.
